

Section I - Maps

The maps in this section are provided as reference. The following definitions may be helpful:

Planning Subarea: Loudoun has defined ten planning subareas that represent geographical areas with similar development futures and are used in growth scenario development and analysis.

Office and Industrial Corridor: There are six distinct office and industrial corridors in Loudoun County. Each corridor has unique characteristics for businesses. The corridors are: Route 7 (office and research uses); Route 28 (office, business uses, and destination retail); Route 625 (office and business uses); Route 606 (industrial uses); Route 50 (business uses and heavy industrial); and Route 627, or the Greenway (high density and high end office).
